Indirect Shade Series
INSTALLATION GUIDE

Mounting Hardware Included:

Quantity of 1: 1/8 IPS Pipe
Quantity of 1: Lock-Up Cap
Quantity of 1: Mounting Crossbar

Fixture Components Included:

- Back Plate with thumb nuts
- Auberge LED module (packaged with mounting hardware and Energy Star WAGO/IDEAL connector)
- Decorative Lamp Shape

Installing your Auberge light fixture:

CAUTION: Be sure the power is turned off by either removing the fuse or closing the circuit breaker. Installation must be in compliance with National, State and Local electrical codes.

1. Remove Auberge LED module from ESD bag. Using screws provided, mount LED module to Auberge back plate.

2. Attach the crossbar to the junction box. Screw the 1/8 IPS pipe into the cross bar.

3. Connect the electrical wires from the junction box to the electrical wires of the LED module. For Energy Star compliance, utilize the WAGO/IDEAL male/female QuickConnect provided.

4. Place the LED light system (LED module with back plate) over the 1/8 IPS pipe from the universal mounting ring and carefully slide the fixture up snug to the junction box being careful to ensure the wires feed into the junction box. Screw on the lock-up cap to the 1/8 IP pipe.

5. You have the option to secure the back plate to the wall via a threaded or plastic anchor for additional support. Note hole location (marked Additional Anchor mounting location).

6. Mount decorative shade to the light module using hardware included. Shade slides down behind back plate and then secured to the back plate with the provided M3 screw.
